

I have worked at Coppice School for five years as Parent Support Advisor.

I thoroughly enjoy working with parents, pupils and families and supporting with a wide range of issues.

Parents find it useful to have a named person in school to speak to with questions, concerns and requests for services.

My role has expanded to chairing all the Education, Health and Care Plan reviews and this is where I meet many of the parents. We always love to see parents in school but, during COVID lockdown, we have all had to embrace technology and find different ways to communicate.

Please feel free to ring for a chat if you need advice or information. There is a list of useful telephone numbers and links. If you need any further information around these services, please contact me.
